

FOR IMMEDIATE RELEASE

Veteran Musical Comedian Ray Fogg Captures 38 Years of Put-in-Bay Entertainment on New Live Album

For nearly four decades, audiences visiting Put-in-Bay, Ohio, have laughed, sung along, and become part of Ray Fogg's unique brand of musical comedy. Now, that live experience has been captured on his latest album, **Shut the F*ck Up**, released independently through Sweetwater Records and distributed worldwide by CD Baby. In support of the album, Fogg is now appearing through the season at Reel Bar in Put-in-Bay, Ohio, where the album was recorded live.

The recording features 28 tracks, blending stand-up comedy, spontaneous crowd interaction, and original comedy songs—the same formula that has made Fogg one of the island's most recognizable entertainers for 38 years. Although in today's world, individual tracks are often streamed alone, this album is best listened to as an entire work to give the best impression of Fogg's shows.

Beyond Put-in-Bay, Fogg has entertained audiences each winter in Key West, FL and performed many years at other notorious party vacation spots like New Orleans, as well as appearing at cities around Lake Erie, building a devoted following through his quick wit, audience participation, and original songwriting.

Best of all, his new album captures the unpredictable energy of a live audience, preserving the atmosphere that has kept audiences returning year after year.

The album is available on Apple Music, Spotify, Amazon Music, Deezer, and other major streaming platforms.

About Ray Fogg

Ray Fogg is an American musical comedian, songwriter, and live entertainer whose performances combine stand-up bar room comedy, audience interaction, and original music. He has been one of Put-in-Bay's most popular entertainers for 38 years while also performing regularly in Key West and New Orleans.
